# Two companies introduce themselves.

## Dauids GmbH, Geilenkirchen

Dauids is the owner of the landfill (DKI) at the Aldenhoven site.

The permit for the construction and operation of the landfill with a total capacity of 3.5 million cubic meters was granted in March 2019. The landfill was opened upon completion of the first section in spring 2021.

At the same site, the company extracts raw materials such as gravel, sand and macadam and produces recycled building material for sale.

Other activities of the Davids family business are existing in the sectors of renewable energies and in the ownership and operation of leisure, sports, gastronomy service facilities and other commercial properties.

You are welcome to visit Davids at [www.franz-davids.de](http://www.franz-davids.de).

## ASCA Altlasten-Sanierungs-Center Aachen GmbH & Co. KG, Aachen

ASCA Altlasten-Sanierungs-Center Aachen provides services to the environmental sector and is specialised in remediation and waste management. As a subsidiary of Davids GmbH, ASCA is tasked with sales as well as operations of the Aldenhoven landfill regarding waste technology and law.

At the same site, ASCA also runs a Storage and Treatment Plant for mineral waste containing substances exceeding the concentration limits class DKI and for waste with specific organic contaminants.

You are welcome to visit ASCA at [www.asca-aachen.com](http://www.asca-aachen.com).
